ANNUAL REPORT
OF THE
Chief and Clerk of Fire Department.

NEWMARKET, N. H., Feb. 15, 1909.

TO THE TOWN OF NEWMARKET:

In compliance with the law, requiring the Chief Engineer of the Fire Department to make an annual report to the town, the following report is respectfully submitted.

FORCE OF THE DEPARTMENT.

The regular force of the department consists of a chief and three assistant chief engineers, two hose companies of 16 men each, one hook and ladder company of 12 men, and a driver for hose wagon No. 3. Each company is allowed to have five substitute members, who, when acting as such, are paid for their services by their principals.

FIRE APPARATUS.

One hose wagon; one double runner hose pumg; two two-wheel hose carts; one hook and ladder truck; 2100 feet 2½ inch rubber-lined, knit hose; 1000 feet 2-inch rubber-lined hose; nine flexible play pipes; two two-to-one Siamese connections; one one-to-two Siamese connection; four Calahan shut-off nozzles; four solid play pipes; three chemical extinguishers; two single hydrant gates; 32 spanners; seven hydrant wrenches; eight lanterns; two torches; two crowbars; 12 shovels; five hoes; four fire axes; three coats; 18 fire hats.

The Gleason & Bailey steel frame truck carries one 45-foot East Somerville extension ladder; one 26-foot, one 25-foot, one 24-foot and one 18-foot single ladders; one pull-down hook and chain; four hand hooks; two crotch poles; two fire axes; two crowbars; two sledges; 200 feet of rope; four lanterns; one signal lamp; two torches; one 13-inch gong. There are also held in reserve one 30-foot, one 25-foot and two roof ladders.

FIRE ALARM.

One 2000 lb. bell and striker, in steel tower; two 18-inch gongs; two 8-inch gongs; twelve fire alarm boxes; seven miles of wire, and the proper amount of battery to sustain the same.

APPARATUS.

Our apparatus stands practically as last year, and with the exception of the hose, is in equally as good condition.

REPAIRS.

The repairs on the apparatus during the year were confined to the general wear and tear, no extensive repairs being made on the apparatus, mostly on the alarm.

WATER SYSTEM.

This system includes 57 two-way hydrants. The water supply has been found ample for our needs and given us good pressure whenever wanted.

GENERAL REMARKS.

It will be seen by the clerk's report that the total amount of fire loss the past year was \$2,055 ; insurance paid on same, \$1,305.

The report also shows that the whole number of bell alarms was fourteen, there having been four still alarms for chimney fires, where, by prompt work with the hand extinguishers, much property was protected.

In comparing this unusual small loss of property with the many thousand dollars worth of property at hazard, some little credit must be given our firemen. For better results or more willing service, will be found nowhere.

HARRY VARNEY,
Chief Engineer.

FIRE LOSSES AND INSURANCE.

Total number of bell alarms the past fiscal year, fourteen. Still alarms, four. The total amount of loss was \$2,055.00. Amount of insurance paid on account of property damaged or destroyed by fire, \$1,305.00.

FIRE RECORD.

DIRECTIONS FOR RINGING IN AN ALARM.

When a fire breaks out the person discovering it should immediately run to the box *nearest the fire*, break the glass in the front of the small key box which is on the side of the fire alarm box, take out the key, which is attached to a chain, unlock the fire alarm box, open the door and pull down the hook *as far as it will go*, then let go the hook. Stand by box to direct the firemen. Don't pull in an alarm for a fire seen at a distance or out of reach of the hydrant system, but notify some member of the department, who will give the proper alarm.

FIRE DEPARTMENT SIGNALS.

Second alarm, 8 blows, for reserve apparatus and call firemen.

2 blows after fire alarm indicates fire all out.

2-2-2. Engineers' call; companies assemble at stations and await orders.

3-3. Hose 3 call. For chimney fires, etc.

4-4-4. Call to Newmarket Manufacturing Co.'s hose company for assistance.

U. S. Observatory standard time, by Western Union Telegraph, one blow at 12.30 P. M., daily.

Hook and Ladder Co. and Hose 3 will answer all box calls.

Hose 1 will answer boxes 12, 21, 32, 34, 41, 45 and 49, with apparatus.

Hose 2 will answer boxes 5, 7, 21, 63, 65 and 82, with apparatus.

PUBLIC LIBRARY.

REPORT OF TRUSTEES.

Your trustees are pleased to report that the Newmarket Public Library is in a better condition than ever before.

The money appropriated by the town has been wisely spent, and a selection of valuable books has been added to the library.

The new system of book-keeping adopted last year has been still further improved and is meeting with success.

The new manner in which the books are being given out is of mutual advantage to both patrons and librarian, and books are kept in circulation much better than before.

It is the desire of all the officials to so manage the affairs of the Public Library as to make it of all possible benefit to the community, and a credit to the town and an honor to its founder.

The public's attention is called to the excellent facilities of the reading room in the Library Building, which is open on all the regular library days.

Respectfully submitted,

LOUIS P. BEAUDET,

Secretary.

SCHOOL TREASURER'S REPORT.

As the financial year of the school district does not close until the last of March it is impossible to give a complete Treasurer's report, as a number of bills yet remain unpaid. But for the information of those interested, and that our schools may receive sufficient financial support, by appropriations at the annual town meeting, a brief statement is made by the Treasurer, showing the receipts and expenditures up to March 1st. The most of the balance now in the hands of the Treasurer will be needed to pay the teachers, janitor and other bills due at the end of the present term.
